The University College of Engineering (UCE) extends its profound gratitude to Prof Kumar Molugaram, Hon'ble Vice-Chancellor, OU for his exemplary commitment and proactive role in conducting CAS interviews with meticulous planning and swift action in issuing Promotion Orders in a record time of just "three" working days. The College thanks Registrar Prof. G. Naresh Reddy and OSD to VC Prof. S. Jithendra Kumar Naik for their unparallel efforts.

Impact on Accreditation and Future Excellence

Principal emphasized the critical timing of these promotions, noting that the successful and transparent outcome of the CAS process is vital for the upcoming National Board of Accreditation (NBA) Expert visit for accreditation of UG programs. This timely recognition of faculty merit is a powerful indicator of the institution's commitment to quality assurance and continuous improvement.

Commitment to the University's Vision

In congratulating all colleagues who successfully navigated the CAS process, Prof. Chandra Sekhar affirmed:

"On behalf of the UCE community, I assure the administration and all stakeholders that we will redouble our efforts to take the college to greater heights, aligning with the aspirational vision set forth by the leadership." He further added that the rigorous, unbiased and accurate CAS review process inherently facilitated a deep personal introspection among faculty, enabling them to carry out self SWOT analysis, identify and address gaps in their professional profiles, ultimately benefiting both their personal growth and the university at large.

The UCE stands committed to leveraging this momentum to enhance research output, teaching quality, and institutional standing.
